Claim Rejections - 35 USC § 112

1. Claims 10 and 12-18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. It is unclear where the specification contain a written description of the limitation "scanning the light beam in a manner such that the light spot partially overlaps the light spot adjacent thereto in a main scanning direction that is a circumferential direction of the optical recording medium and the light spot adjacent thereto in a subsidiary scanning direction that is a radial direction of the optical recording medium" as now recited in claim 10. Claims 12-18 fall with their respective parent claim.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 10, 12-14, 16-18 and 29 are rejected under 35 U.S.C. 102(e) as being anticipated by Oshima et al (US 6,266,299)

The applied reference has a common assignee and inventor with the instant application.

Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35

Art Unit: 2653

U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Oshima et al., according to Figs. 15-19 and 38 and 39, shows a recording apparatus for recording medium identification information by using a light spot, which has a narrower width than that of the medium identification information in a circumferential direction and a shorter length than that of the medium identification information in the radial direction, and scanning it in the information layer of the subsidiary information area such that the light spot partially overlaps the light spot adjacent thereto in a main scanning direction that is a circumferential direction of the optical recording medium and the light spot adjacent thereto in a subsidiary scanning direction that is a radial direction of the optical recording medium (see Figs. 16-19 and 38A-39G for details). For limitations in claims 12 and 13, see column 21 line 29 to column 22, line 37. For limitations in Fig. 14, see Fig. 11A or 11B. For limitations in claims, 16-18, see Fig. 19 and 39. For limitations in claim 29, see Fig. 15 and 38.

Allowable Subject Matter

4. Claim 15 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. Claims 26-28 are allowed.

Art Unit: 2653

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thang V. Tran whose telephone number is (703) 308-1551. The examiner can normally be reached on Tuesday to Friday, from 7:30AM to 6:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, William Korzuch can be reached on (703) 305-6137. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
